

WEBSITE DESIGN

WEBSITE DESIGN PROPOSAL

Prepared by **Wilky Productions** — new sites and redesigns, built and maintained by one person from start to finish. Below are the three package options available, what's included with every project, and how the process works. All prices are starting points — final pricing depends on your specific pages, features, and content.

PACKAGES

Pick the package that fits where your business is today — every package can grow with you later.

STARTING AT

\$1,500

Single-Page

- One fully designed page, built to tell your story top to bottom
- Smooth-scroll anchor navigation between sections
- Custom nav menu
- Mobile-responsive, fast-loading layout
- Contact form or call-to-action built in

Best for: personal brands, service businesses, portfolios, and landing pages

STARTING AT

\$2,000

Multi-Page

- Up to 3 pages included (e.g. Home, About, Services, Contact)
- Custom nav menu connecting every page
- Mobile-responsive, fast-loading layout
- Contact form and/or booking & quote requests

Need more than 3 pages? Additional pages can be added for an extra fee — just ask for a quote.

Best for: small businesses that need more room to tell their story

STARTING AT

\$3,000

Ecommerce

- Full online store build with product catalog and product pages
- Shopping cart and secure checkout
- Payment processing setup
- Custom nav menu, mobile-responsive, fast-loading

Best for: businesses ready to sell products directly through their website

INCLUDED WITH EVERY PACKAGE

No matter which package you choose, every project includes:

Custom design matched to your existing brand — or a new brand built alongside it

Built and maintained by one person, start to finish

Mobile-friendly, fast-loading pages

Direct communication throughout — no account managers, no outsourcing

HOW IT WORKS

Every project follows the same straightforward process, from first email to launch day.

1**Email a quote request**

Tell me about your business and what the site needs to do.

2**Design**

A layout and style direction built around your brand.

3**Build**

The site gets built, tested, and reviewed with you.

4**Launch**

Site goes live, with a walkthrough of anything you'll manage yourself.

COMMON QUESTIONS

What determines the final price?

The starting prices above cover a standard build for that package. Final pricing depends on the number of pages, custom features (like galleries, booking systems, or animations), and how much content needs to be written or organized.

Can I upgrade packages later?

Yes — a single-page site can grow into a multi-page site, and a multi-page site can add ecommerce functionality later, without starting over.

Do you handle hosting and domains?

We'll walk through your hosting and domain setup together as part of the process, so you know exactly what you own and how it works.

What do you need from me to get started?

A quick email with your business details, what the site needs to do, and any examples of sites or styles you like. From there, we'll schedule a time to talk through the details.

READY TO GET STARTED?

Email for a custom quote on your project — every proposal is tailored to what your business actually needs.
